-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-40, drawn to a positioning fixture/trial/prosthesis, classified in class 623, subclass 22.12.
 - II. Claim 41, drawn to a method for providing joint arthroplasty, classified in class 606, subclass 86.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case the process for using the product as claimed can be practiced with another materially different product, such as one requiring the use of a trial to record depth and orientation, followed by implanting a prosthesis to said recorded depth and orientation. Also, the process for using the product as claimed can be practiced with another materially different product such as a disc/disk implant.
3. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.
4. This application contains claims directed to the following patentably distinct species:

Art Unit: 3738

Fixture

Species A: Figure 1

Species B: Figure 14

Species C: Figure 15

Species D: Figure 20

Species E: Figure 22

Species F: Figure 27

Species G: Figure 30

Species H: Figure 31

Species I: Figure 33

Species J: Figure 36

Trial

Species A: Figure 7

Species B: Figure 8A

Species C: Figure 8B

Species D: Figure 8C

Species E: Figure 8D

Species F: Figure 16

Prosthesis

Species A: Figure 9

Species B: Figure 10

Species C: Figure 11A

Species D: Figure 11B

Species E: Figure 11C

Species F: Figure 11D

Species G: Figure 12

Species H: Figure 18

The species are independent or distinct because they represent patentably distinct structural limitations.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
